Jamie's acute organizational skills and warm personality helped her create the perfect business for herself... wedding planning. She wanted to ensure that each couple had the best possible experience throughout the planning process. Jamie has stuck to her goal of creating "A Perfect Day" for all of her brides and grooms.

Jamie Higa : event manager

Name one thing that really makes A Perfect Day stand out.

"It would have to be our meticulous timelines! Our day-of timelines go down to the EXACT minute detailing where everyone should be from the bride and groom to the flower girl and Mother-of-the-Bride. We also have a side column listing which coordinator will be where at what time that corresponds with the timeline. We like to know exactly what needs to be done to execute a perfect day!" **What is a marked characteristic of your company?** "We're known to have an army of people that work every wedding! We like to make sure that the bride, groom and vendors are always attended to. We may send one Event Manager with five to six assistants to one wedding just to make sure the bride has her gloss at all times, the groomsmen have water, the vendors receive their payments, and the champagne is poured at the right time... We work best as a team, as we're constantly talking to each other on our ear pieces ensuring accuracy and flawless timing throughout the day."

Jax and Joey, my boys...

Dylan Dawson

I wanted Leila to have the wedding of her dreams... and with our four-year anniversary coming up, I needed to think of a gift for her. I decided to enlist the help of A Perfect Day and give Leila her best anniversary present so far! The only word to describe our wedding day was PERFECT and we could not have done it without the crew of A Perfect Day.
