Helping couples create elegant, fun, unique, memorable, enchanting, interactive, simple, well-organized, stress-free, exciting, comfortable, entertaining, energetic, lively, personal, intimate, romantic, emotional, carefree and relaxed wedding receptions.

owner / DJ / emcee : David Louis

What makes your company unique? "We're so much more than a DJ company who just provides the music... we collaborate with our couples, plan turnkey reception timelines, and then make it all happen. We have a wealth of fun and creative ideas to share that will make any event both entertaining and unforgettable." **Tell us about your staff.** "We have a full wedding team to support our events. My primary role in the company (besides being a DJ/emcee) is to keep our ideas fresh and fun by attending various conferences and workshops. In addition to my 23 years in the industry, our DJs/emcees each have over 18 years experience, so our team is very talented and versatile. Two of our most popular DJs/emcees, Kutmaster Spaz and Gary Meyer, headline many of our events and help make them both exciting and memorable. My wife, Lupe, is the reason we're so organized. In addition to managing our office, she works closely with our brides and grooms to create and ensure their timelines are just the way they envisioned. My sister, Dee Ann, is our communications guru, who always makes our couples feel comfortable right from the start. Our team is powerful and unique because we deliver professional service with a personal touch." **What challenges has your company overcome?** "We've been blessed with tremendous growth in the last several years. We went from a single-person operation to a fully-staffed company, which always takes transitioning and a new understanding of roles. Now, couples embrace our philosophy of a fully integrated team and are confident that we have all the right energy, tools, and experience to put on awesome events."

The Louis family

“

The day of the wedding would never have been so memorable without Dave's touch. His focus was not only on keeping us happy, but keeping our guests entertained with fun interactive ideas as well. The flow of the wedding activities went smoothly, and everything was completely on time.
